

REEVES (ICP)

INCIDENT COMMAND POST TRAILER

RESPOND IN MINUTES

TO ANY CRITICAL SITUATION

Introducing the **Reeves Incident Command Post Trailer (ICP)** — a lightweight, transportable, fully equipped incident command post that can be set up in minutes by minimal personnel during any police operation.

Navigate varying terrain and extreme environmental conditions with the ICP's specialized trailer and shelter combination. With a starting weight of less than 3,000 pounds, the trailer's lightweight, aerodynamic design ensures that it can travel anywhere your vehicle can go. Once on the incident scene, the shelter provides as much as 214 square feet of usable space that is protected from the elements.

Features include:

- Allows for the secure transport of communications equipment, weaponry, body armor and other tactical gear.
- Double-wall, insulated shelter is built to withstand extreme weather and temperatures.
- Flexible design can be configured for various operations, such as a command post or briefing area.
