

5-Bed Casualty Collection Point

(359 usable sq. ft.)
RHPK0100

The Reeves 5-Bed Casualty Collection Point provides hospital medical and emergency personnel with **359 square feet of usable space** in which to administer emergency treatment to multiple victims during any health crisis where there is hospital overflow or victims need to be quickly treated and sent home, such as during a pandemic or other disaster.

Flexible and easily transportable, the Reeves 5-Bed Casualty Collection Point can be used for multiple applications, including as a **triage center**, **initial hospital screening area** and **mobile POD**, ensuring that responders are prepared for an emergency whenever, and wherever it may occur.

Key Features Include:

- Military-grade Deployable Rapid Assembly Shelter (DRASH) withstands extreme weather and temperature conditions.
- Shelter can be set up or taken down with minimal effort by only six personnel within a matter of minutes without the need for special tools that can be lost or misplaced.
- “Turn key” system is integrated with heating, cooling and lighting to form a complete infrastructure solution.
