

Medium Emergency Operations Center

(359 usable sq. ft.)
RHPK0175

The Reeves Medium Emergency Operations Center provides emergency personnel with **359 square feet of usable space** in which emergency operations can be directed and coordinated from a centralized location in the field.

Unlike a fixed facility, the Medium Emergency Operations Center can be deployed directly to the scene of the disaster or emergency. Once on site, the rugged, climate-controlled shelter system can be set up in minutes to serve as the central logistics point for all emergency preparedness and response.

Key Features Include:

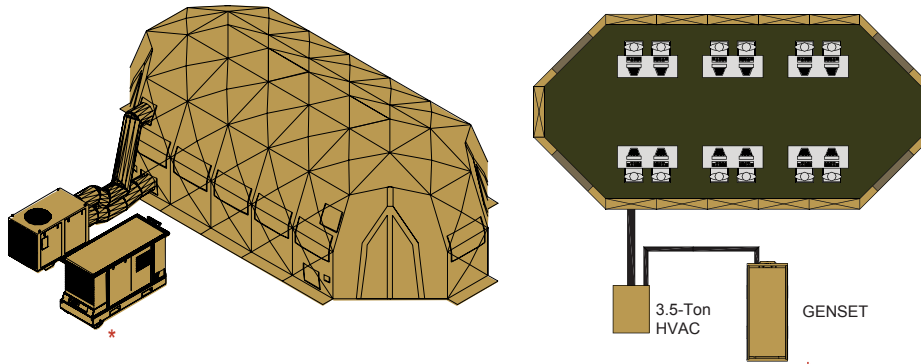

- Military-grade Deployable Rapid Assembly Shelter (DRASH) withstands extreme weather and temperature conditions.
- Shelter can be set up or taken down with minimal effort by only four to six personnel within a matter of minutes without the need for special tools that can be lost or misplaced.
- "Turn key" system is integrated with heating, cooling and lighting to form a complete infrastructure solution.
