

Medium Fatality Management Center

(414 usable sq. ft.)
RHPK0325

The Reeves Medium Fatality Management Center provides response personnel with **414 square feet of usable space** for the identification, processing, storage and viewing of casualties following a disaster or emergency.

Rugged and reliable, the Reeves Medium Fatality Management Center can be deployed directly to the incident site to serve as a secure location in the field for police and emergency personnel to collect evidence during the course of an investigation or as a temporary Family Assistance Center for the identification of those deceased.

Key Features Include:

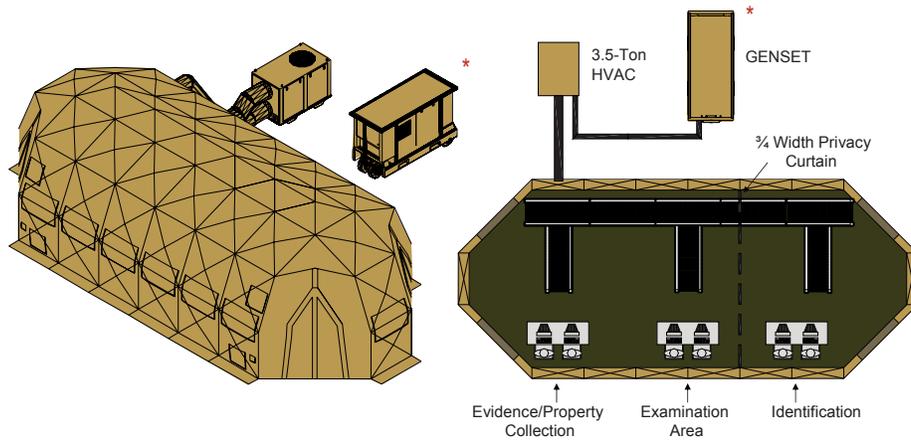

- Military-grade Deployable Rapid Assembly Shelter (DRASH) withstands extreme weather and temperature conditions.
- Shelter can be set up or taken down with minimal effort by only six personnel within a matter of minutes without the need for special tools that can be lost or misplaced.
- “Turn key” system is integrated with heating, cooling and lighting to form a complete infrastructure solution.
